Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and those arising therefrom. DYSPEPSIA, a hydra-headed disease, is one of the complaints in which these pills are found to cure many cases of disease.

Among the testimonials of their efficacy are the statements from some eminent physicians of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Carpenter, of New Orleans.

Your Pills are the prince of purges. They are so much more efficacious than any cathartic we possess. They are certain and effectual in their action on the bowels, and make them have ease to us in the daily management of our patients.

AS JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theo. Ott, of New York City.

I not only use your Pills exclusively adapted to their action as a specific, but I advise their use in all cases where the Liver very marked indeed. They have in fact proved more effectual for the cure of bilious disorders than any one article I can mention. I sincerely believe that we have at length a purgative pill which is worthy the confidence of the profession and the people.

DYSPEPSIA — INDIGESTION.

From Dr. Henry S. Knox, of St. Louis.

Your Pills you sent me, and enough to send me have been used in my practice, and have satisfied me that they are the extraordinary in addition. So decidedly are they adapted to the diseases of the human system, that they produce work upon them alone. I have cured some cases of dyspepsia and indigestion with them, which had resisted every remedy we commonly use. Indeed I have, especially I think, to be effectual in almost all the cases for which you recommend them.

DYSENTERY — DIARRHŒA — RELAX.

From Dr. J. O. Green, of Chicago.

Your Pills have had a long trial in my practice, and I feel bound to express my sense of the best aperients we have. Their alterative effect upon the liver makes them the best remedy, when given in small doses, for bilious disorders. I shall continue to prescribe them in my practice, and confident for the end of a much and extended trial.

CHRONIC CONSTIPATION — WORMS — SUPPRESSION.

Rev. E. Smart, who practices as a Physician and Minister, in Boston.

I find one or two large doses of your Pills, taken at the proper time, are exceedingly promotive of the natural secretions, when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are much the best physic we have that I recommend to my patients.

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Chapin, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. All others I have entirely have found them wholly inadequate to the task. I do not hesitate to recommend them to the benefit of the dyspeptic, who suffer from that malady, which, although not fatal in itself, is the prolific source of others that are so. I have no preference to make in the liver, but your Pills are the only ones that operate with certainty.

CORRUPTION OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. J. Pickel, Lititz, Philadelphia.

Your Pills are the best cathartic we have, and in many cases were right, Rheumatism, Gout, Neuralgia, Tumors, etc. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy, and admit the extraordinary cures, and many of the important results in the worst, most aggravating diseases. They purify the fountain of life and infuse vitality into the system.

Such remedies as you prepare are a national benefit, and deserve great credit for them.

PREPARED AND SOLD BY DR. J. C. AYER, PRACTICAL AND ANALYTICAL CHEMIST, LOWELL, MASS.

SOLD BY ALSO: L. Alden & Co; S. R. Perkins; B. F. Bradley & Co., N. S. Harlow; A. P. Quill, and J. Graham, Bangor; N. Walker & Son, Orono; Wm. Hooper, Castine; C. G. Peck, Ellsworth, and all Druggists.

IN announcing the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that in order to increase and stimulate the formation of clubs, they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the fifteen largest lists of subscribers sent in by the 1st of January, 1858, said premiums to be distributed as follows—

For the largest list $300; 2d, $250; 3d, $200; 4th, $150; 5th, $100; 6th, $75; 7th, $50; 8th, $50; 9th, $50; 10th, $50; 11th, $40; 12th, $35; 13th, $30; 14th, $25; 15th, $20.

Names of subscribers can be sent in at different times and from different post offices, and the cash will be paid to the orders of the successful competitors immediately after the 1st of Jan., 1858.

Southern, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to remit twenty-six cents extra on each year's subscription to prepay postage.

Terms of Subscription—Two Dollars a year, or One Dollar for Six Months.

Club Rates—Five Copies, for Six Months, $4; Five Copies for Twelve Months, $8; Ten Copies for Six Months, $8; Ten Copies for Twelve Months, $15; Twenty Copies for Twelve Months $25.

For a Club of Twenty, and over (the yearly subscription is only $1 40,)

The new volume shall be printed upon this paper, with new type.

The general character of the SCIENTIFIC AMERICAN is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work*, and all interests which just light of Practical Science is calculated to advance. It is issued weekly, in form for binding. It contains annually from 500 to 600 finely executed Engravings, and notices of American and European improvements, together with an Official List of American Patent Claims published weekly in advance of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid, fearless tone in combatting and exposing false theories and practices in scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopædia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when this water-proof is used, it is rendered soft, and entirely impervious to water.

After being engaged for 26 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence recommend it to the public as the best article in the market.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE. TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Royal de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each case.

Sold by Dr. H. A. MARROW—Member of the Imperial College of Vienna and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 157 Prince Street (few Doors West of Broadway) New York, from 11 o'clock in the morning till 2, and from 6 o'clock till 8 in the evening, (Sundays excepted.)

TRIESEMAR No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, which, all physical impediments vanish like magic before its influence, thus rendering the use invaluable to those entering the marriage relation.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copaiva and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.

TRIESEMAR No. 3—Is the great European remedy for that class of disorders which, Mercury in its day, the English physicians trust will come to the inevitable destruction of the Syphilis in the constitution, and which all the Sarsaparillas cannot remove.

These medicines are prepared in the form of a lozenge, free from taste or smell, and can be carried in the vest pocket. *Sold in packages containing a separate dose, as administered by Velpeau, or four doses in one for $9, one for $3 and in 27 cases, whereby there will be a saving of one dollar.*

Arrangements have been made with the Special agents, the nine-dollar cases of the various kinds, and the larger sizes, will be forwarded Free of Carriage paid, immediately on receiving a remittance, to any part of the world; securely packed, and addressed according to the directions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three-dollar cases sent as usual, but not free of carriage.

IMPORTANT DISCOVERY

CONSUMPTION CURABLE

IN THE USE OF

CONSUMPTION VINCIBLE

The most powerful and effectual remedy ever discovered for the treatment of PULMONARY CONSUMPTION! This medicine is a choice combination of Vegetable products, and possesses all the rare medicinal properties so long and eagerly sought for by the profession. It is the result of different study and research through a long series of years, and is now, for the first time, presented to the notice of the public.

IN EVERY CASE of suspected PULMONARY CONSUMPTION, where it has been tried it has proved, beyond any doubt, to be an EFFECTUAL REMEDY. It is a very agreeable and pleasant medicine, and a trial of its virtues is earnestly recommended to every person who has a cough, or who may be predisposed to Consumption, as a remedy of no ordinary value, with the assurance that, if the directions which accompany it are faithfully adhered to, it will prove to be a SOVEREIGN BALM, restoring the healthy functions to all the organs of the body.

Directions in English, French, and German, accompany each package. Price $1 per bottle.

All orders by mail or express, accompanied by the money, will be promptly attended to.

N. B. A Treatise upon the *Nature, Causes, Symptoms, and Prevention of Pulmonary Consumption* can be had on application at the office of the Agent, as above, or will be sent, by mail to any address. This Treatise will well repay a perusal. nov25 3t, 1dly jb

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. Nicholas, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud—on Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GREEN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is manufactured by Mr. Henry, Assayer of the U. S. Mint, Mr. Lyman of the New York Crystal Palace, and Meadus, Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—25 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts. a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moisture of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper make it indestructible by the ravages of time. It is also proof against moth, rats and other vermin, which least or all destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of 800 horse power, and are able to fill all orders for Paper at the shortest notice.

All letters for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

The Bangor Union asserts, with the President, that the slavery question is fully and fairly presented to the people, by the Lecompton scheme. Now the proclamation of Hon. John Calhoun, who, as President of the Lecompton Convention, ordered the election of the 21st, shows by its wording, exactly how the question was submitted. If any difficulty exists in the mind of any man as to the meaning of the Schedule, the language of Mr. Calhoun is sufficient to clear it up. According to his understanding, the people of Kansas are not called to vote *ex nomine* upon either the toleration or the interdict of slavery in the Territory, but that "*the future introduction*" of that institution is the only point upon which the popular suffrage is invoked. The terms of the Proclamation expressly declare that the people, in voting for Kansas as a "free State" or for Kansas as a "slave State" by the ballots respectively indicated, are in reality voting only "for or against the future introduction of slavery into the said State."

It is not an anti-slavery—but a non importation clause which is submitted to the people. And according to sage democratic doctrine just broached—the *new* step about to be taken—it matters not a rush to the slaveholders whether the people vote against the importation of slaves or not. National democracy is now declaring that every slaveholder has a right, under the Federal Constitution, to carry his human property into any *State* and hold it there, whether the people of that State desire it or not. A little while ago it was *ultra pro-slaveryism* to declare that the Constitution protected slavery in the national territories. It is now becoming *National Democracy* to say that the STATES HAVE NO RIGHT TO EXCLUDE SLAVE PROPERTY. And where, in the meantime, is popular sovereignty?

MR. DOUGLAS'S BILL.—The bill introduced into the Senate by Mr. Douglas, provides for a Board of five persons, to be appointed by the President, and confirmed by the Senate, to make an enumeration of the inhabitants of Kansas, and a fair apportionment of members to the Convention. It also provides for an election to be held on a day designated by the Board, not less than 90 nor more than 120 days from the passage of the act. Also provides that the Board shall be entrusted with the appointment of Judges and places of voting, which is to be confined to every free white male citizen of the United States over 21 years, who may be a bona fide inhabitant of the Territory on the 21st December, and who shall have resided three months prior to the said election in the county in which he offers to vote. Also provides that the Convention shall assemble at not less than 30 nor more than 60 days after the election of delegates. Also provides that the Constitution shall be submitted to the legal voters for their free acceptance or rejection, and unless adopted by the majority of all the legal votes cast, shall be null and void.

CAMBRIDGE LAW SCHOOL. We are indebted to the Librarian of Cambridge, University for a copy of the Catalogue of the Law School for the present year. In the Senior Class there are 58 students, in the Middle Class 23, and in the Junior 33. Among the Seniors we notice the name of Mr. George Theodore Moody of Bangor.

The course of instruction for the bar embraces the various branches of Common Law and of Equity; Admiralty, Commercial, International and Constitutional Law, and the Jurisprudence of the United States. There is a more limited course of instruction for young men designed for the Mercantile Profession.

The Law Library contains about 15,000 volumes.

The Kansas bill introduced into the House by Mr. Banks provides for the formation of a constitution and State government by authorizing the legal voters on the first Monday in March, to elect delegates, one for each Representative in the Territorial Legislature, who shall assemble at the capitol on the 2nd Monday in ——, and determine by vote whether the people of Kansas wish her to be admitted into the Union at that time; and if so, shall form a constitution and take all necessary steps for the establishment of a State government, subject to the approval and ratification of the people of Kansas.

RELATIVE STRENGTH OF PINE AND HEMLOCK TIMBER.—At an inquest held in New York over the bodies of two workmen killed by the breaking down of an upper floor in a building on the corner of West and Bethune streets, it was stated, by several master-builders, that they considered pine beams as able to bear one hundred and fifty per cent. more weight than hemlock of the same size; and that spruce is as strong as pine. Hemlock, they say, when once bent, has not sufficient elasticity to regain its level.

STEINMAN, the princely mansion of P. T. Barnum, at Bridgeport, Conn., which was totally destroyed by fire on Thursday night last, cost $100,000, and has usually been insured for $60,000, but at the time of its destruction was only partially insured to some holders of mortgages. It is thought to have been set on fire.

New Publications.

THE WAVERLY NOVELS. Household Edition. Boston: Ticknor & Fields.

The issue for December of this unique and popular edition, comprises "*The Monastery*," in two volumes. This is one of the most poetical and imaginative of the novels of Sir Walter Scott,—while at the same time it contains much reliable historical information. The time of the story is at the interesting period of the early years of Elizabeth's reign, when the Protestant Reformation was overthrowing the still strong Catholic establishments of Scotland, and when the feudal powers and privileges of the remaining Monasteries were about to be taken from them by the strong hand.—In this novel, the author has introduced, in the character of the White Lady of Avenel, more of the supernatural element than in most of his other works. In the incidents connected with her appearances, the author leaves no chance for a natural solution, as he has done in some others of his characters.

Messrs. Bugbee & Co. are the Bangor agents for this edition.

HARPER'S MAGAZINE which we receive thro' Messrs. A. Williams & Co., Boston, and Alonzo Bartlett, Bangor, is one of the best numbers yet issued of that varied and interesting monthly. Its principal articles are highly entertaining and profusely illustrated. The Drawer is prolific of good things as usual; and the original and selected tales and sketches are numerous and attractive. The number gives promise of continued improvements for the coming year.

KANSAS. A free State Mass Convention was held by adjournment at Lecompton on the 17th. The members, it is said, marched in procession, fully armed, each man with a Sharpe's rifle and revolvers; presenting a very formidable appearance. The Calhoun men had appointed a convention on the same day in Lecompton. But when the free State procession appeared and gave three cheers for free Kansas, the Calhounites, some three hundred in all, adjourned across the river and rode do their nominations *en route* home.

One of the Democrat's correspondents says:

"The constitution has been altered in many essential points since its adoption, but all in favor of National Democracy. The apportionment has been altered and revised, and three more Senators added to the list by the committee on verbiage. A mere *exparte* piece of rascality could not well be gotten up, without time or study."

THE LAUNCHING OF THE LEVIATHAN. The extreme slowness of the process by which this monster of the deep is moved towards the water, is not generally understood. She is moved by means of hydraulic presses of immense power, but whose action is proportionably slow. The greatest distance the ship has been moved at one time has been twelve inches; and on one occasion she was eleven minutes in passing over a foot of space. This, however, was considered to be doing very well. But the engineers continue steadily at work, and at the last accounts had brought the vessel over ide water so that her keel was submerged. Little doubt was then entertained of a successful result,—she had been moved 193 feet in all, and there were 107 feet to move to get her clear of the launching ways.

THEORY FOR INDIA.—According to letters from the Cape of Good Hope, 6000 troops for India have been dispatched thence. Moreover, the German Legion, with their commanders, Baron Stutterheim, Brigadier Wecldridge, and the English officers, have to a man volunteered for service in India, and have offered to guarantee a force of 20,000 Germans at call if required.

A PROPOSITION TO GIVE THE OLD STATES SOME CREDIT FROM THE PROPERTY. Mr. Morrill of Vermont has introduced a bill providing for a distribution of public lands to the several States for the purpose of establishing agricultural colleges, giving twenty thousand acres for each presidential elector to every State.—The interest of the fund must be devoted to the maintenance of agricultural colleges, and to nothing else. A limited amount can be appropriated to the purchase of model farms, but not to the erection of buildings.

The N. Y. Post's correspondent thinks there is a chance for the passage of this bill; but we have slight hopes of any justice to New England in this matter of the public lands.

A horrible case of murder is reported from Rochester, N. Y. The report says that on the 20th inst., the body of Chas. W. Little, a lawyer, was found in Genessee river, below the Falls. It was shockingly mangled, which fact, together with evidence on shore of there having been a conflict near the spot, induces the belief that Mr. L. was assassinated. His wife, her brother (Ira Stout) and several of her relatives have been arrested on suspicion of having committed the crime.

On the ground was found a piece of Mrs. L.'s victorine, and several other articles known to belong to her and her brother. In addition Mrs. L. and her brother have each a recently broken arm. Mr. and Mrs. Little separated a year ago, but for the last two months have lived together again.

NOVEL LAW SUIT.—An action for debt by a wife against her husband, to recover money loaned to the husband, being property acquired after marriage, was tried in the common pleas court of Perry county, Pennsylvania, a few days ago, Judge Graham, presiding. The question was whether a wife could maintain a suit against her husband. The court decided that she could, and delivered a verdict for the plff. for $2508.

The examination of W. S. Tuckerman, confined in jail at New Haven, for mail robberies, was on Friday again postponed for two weeks. It is stated that the Government officers have evidence that the checks, notes, drafts and money stolen amount to upward of $300,000. Tuckerman remains under a careful watch, it being feared that if an opportunity occurred he would destroy himself.

The administration has determined to organize a large force in California to operate against Utah, and to cut off the retreat of the Mormons into the Mexican province of Sonora.

LOCAL AND MAINE NEWS.

There was a weak attempt at a snow storm yesterday morning,—but it dissolved in rain, and sleet in the afternoon.

CHRISTMAS LEVEE.—The Sabbath School of the Freewill Baptist Society will hold a Levee on Friday evening for the benefit of the School Library &c. Refreshments will be provided, and a Christmas Tree erected. A pleasant time is anticipated.

Rev. Mr. Giles' lecture upon the "Shades of Temper," was delivered on Monday evening to a crowded house, at the Vestry of St. John's (Catholic) Church. It is gratifying that a lecture of so high a literary order, and delivered by a protestant clergyman, should draw out so large an audience, mostly from among our Catholic brethren, and appear to be so highly appreciated by them.

We were not able to attend Mr. Giles' lecture last evening, in the Mechanics' Association Course, but the subject announced—the life of Charlotte Bronte, and the history and characteristics of that remarkable family—was one upon which the genius of the lecturer must have had full play. The lecture is spoken of in terms of the highest admiration.

A troupe of colored Vocalists are to give two Concerts this week at Norombega Hall—on Thursday and Friday evenings. They are said to possess musical talent of a high order, and are spoken of in terms of high commendation by the papers of Augusta and other places which they have visited.

Sch St Pierre, of Orrington, from this port for Boston, went ashore night of 11th (says the Boston Adv.) on the Western Ledge Sager, and is a total loss. Crew saved.

Ship Juniper, from Rio Janeiro for New York, was lost on a reef south of Pernambuco on the 12th Nov. Her crew had arrived at Pernambuco. The Juniper was built at Robinston, Me., and was 533 tons burthen.

B. C. Cummings, Esq., a prominent citizen of Portland, died suddenly on Saturday, of pneumonia, with which he was attacked at Chicago. He was a son-in-law of Ex-Gov. Wells.

INCENDIARISM IN PORTLAND.—An attempt was made on Friday night to set fire to the joiner's shop of Mr. A. P. Bartlett, on Montgomery St. Some cotton saturated in fluid was placed under the door and lighted, but, fortunately, only the edges of the cloth were burned and the fire then went out.

HOUSE OVER.—Mrs. Susan Hunt has been bound over for trial for an assault with a knife upon Mrs. Harriet Hunt at East Pittston on the 8th inst. Bail to the amount of $800 was required, which was procured.

"SUFFER LITTLE CHILDREN TO COME UNTO ME."—Quite a number of people, mourners and friends, were assembled at the house of a Mr. Reed, in Vernon Court, this afternoon.—The occasion was the funeral of his two little daughters, aged six and eight years. On Tuesday last, both of these little girls were at school, and both seemed as healthy and were as happy as two summer flowers. On Wednesday morning, both were ill,—scarlet fever and quinsy rash set in, and on Thursday night, within an hour of each other, both of them had entered the spirit land. To-day, their bodies were clothed in the little white dresses designed as their Christmas presents by a fond mother, and in one coffin they were borne to their place of sepulture.—*State of Maine.*

MAIN ROBBERIES.—We are informed that the success of success in forcing out depredations upon the mails are much diminished by the publicity which is given to the circumstances which excite suspicion that offences have been committed. Publishing the facts often puts the culprit off his guard and renders detection next to impossible. The facts and circumstances should in every case be communicated only to the Post Master or Special Mail Agent, whose duty it is to take efficient measures to detect the class of offenders. We may also remark that experience has proved that a large proportion of what are called "mail robberies" are not so in fact. The purloining of money and letters has been found, in many cases, to have been done after the letters were delivered, or were taken from their appropriate boxes at the Post Office.—*Argus.*

The Yankees are some on pumpkins.—But big potatoes are a peculiar institution of the South. The Galveston News has seen one (a sweet potato) weighing 10 pounds, and about the size and shape of a pumpkin—being 30 inches in circumference each way. The editor has *heard* of bigger potatoes, on one of which a cow feasted for a week.

BOSTON TO NEW YORK.—The time of leaving Boston for New York, by the Worcester, Springfield, Hartford and New Haven route, is now 8 A. M. and 3 P. M., arriving in New York at 4.30 and 11.30 P. M.

Gen. Cass has written a letter in reply to Gov. Walker, in which he endeavors to combat his positions.

A great meeting has been held at Chicago, sustaining the recent course of Senator Douglas.

THE OLD CRADLE OF LIBERTY. Faneuil Hall contains *standing* room for 5,320 persons. Including the space afforded by window recesses and the porch of the hall, the room when pushed to its utmost may hold an audience of 6,000.

We suppose the capacity of Norombega is nearly as great.

CLIFFORD'S CASE.—The correspondent of the Tribune says:

It was believed in Court circles that nothing more than the form of nominating Nathan Clifford was necessary to make him a Judge of the Supreme Court. Some of his friends were, therefore, a little astonished to-day, when the nomination was called up, to find objection made to immediate action, and were compelled to yield to a postponement. If Democratic Senators could vote upon the resolutions up and down, the result would be doubtful, because the impression is as Clifford with them as with others; that Mr. Fessenden is not equal to the position. His proscription such an expending at home never was equaled which he labors, and surely the reputation tributed little Attorney-General here, contemptible and disgraceful to establish a claim for so respected Curtis, probably trust. He will succeed in the way that night succeeds day.

It is said that there are services in California to yield, though bearing crop of grapes, 1,500,000 gallons ordinary worth $6,250,000.

It is gratifying to perceive that there is still one independent and consistent democratic paper in the State—a paper which undoubtedly represents the sentiments of a large proportion of the disinterested voters of the party, who are not influenced by hopes or fears regarding the offices and patronage at undisposed of by the President. That paper is the Bath Organ. In its comments upon the President's Message it does not hesitate to expose the sophisms and inconsistencies of Mr. Buchanan, upon the Kansas question. The following is its sharp but just criticism upon his miserable evasion of the popular sovereignty clause of the Kansas-Nebraska act:

Singular as it may seem, the President argues that the submission of the bare slavery clause is all that was contemplated in the Kansas-Nebraska act, and therefore that the Lecompton Convention has fully and unequivocally vindicated the doctrine of popular sovereignty.

"Domestic institutions," says the President, "are limited to the family. The relation between master and slave and a few others, are domestic institutions, and are entirely distinct from institutions of a political character."

It seems to us that this mode of restricting the meaning of "domestic institutions" in the Kansas-Nebraska act to the institution of domestic slavery, is unworthy of the Chief Magistrate, as it surely is of the common-sense usage of terms. "Domestic institutions are *limited* to the family." By what are they limited? If by anything it is the word *domestic*—the meaning and definition of that word. Then what do we mean by the *domestic* policy of the government, *domestic* ports, *domestic* bills of exchange? What does Mr. Buchanan himself mean in his Message by "*domestic* discord" in Kansas?

Here, unquestionably, is the true signification of the word as used in connection with the institutions of Kansas in the organic law of the territory. It confines their own local, territorial or state institutions as distinguished from the (to them) foreign or outside federal institutions. We insist upon it that the defence of the Lecompton convention on the meaning of the phrase "domestic institutions," is a lame point in the Message.

POSITION OF AFFAIRS IN INDIA. The London Times thinks the work of subduing the rebels will now be comparatively easy. It says, under date of Nov. 30:

The insurrection has been suppressed in every part of India except a certain district in the Upper Ganges. Rather the mutineers are flocking from every quarter, and while they think they are gaining strength by uniting their forces, they are in reality easing to us a more rapid and easy victory. Henceforth, the public will have to follow the narrative of an Indian war like the other wars that have gone before it.

Some 60,000 Asiatics hold the kingdom of Oude. This kingdom we have to conquer as if it had been till now perfectly independent. How long it will take to accomplish this we may judge from the history of former wars.—The hostile force now rises up against us is not more formidable than the Sikhs or Mahrattas, and will be as easily crushed. When 20,000 more Europeans are brought into the country the work is done.

The population is computed to be the thickest in India, numbering more than 300 to the square mile, a density unknown even in England. The Sepoys, too, are without a home, Oude having been our chief recruiting ground. We may expect, therefore, that if the rebels will fight anywhere it will be in the region to which they are now flocking.

The report of the capture of Nora Sahib, and the death of the King of Delhi, which was one of the rumors by the Canada, does not appear to be confirmed by the Adriatic's advices, so far as reported by telegraph.

THE PLUNDER OBTAINED BY THE REBELS.—The Calcutta Phenix asserts that one of the most active "exciting causes" of the extensive spread of the revolt in India has been the love of loot (plunder) inherent to people of every clime and country in the world, and in particular to the natives of India. At any rate the plunder of the government treasures has been one of the great incentives to popular outbreaks wherever they have occurred. A list of fifty-three treasuries which have been plundered is given, and the loss to the government in specie is estimated at two crores of rupees (£10,000,000 sterling).

CANTON TO BE ASSAULTED. At the latest accounts from China measures were in progress for the assault and capture of the city of Canton by the English naval and land forces—and it was said the French forces would co-operate. It was thought such a event would bring the Emperor to reason.

The following statement is made relative to the failure of Dennistoun & Co., of Glasgow:

The balance sheet shows aggregate liabilities amounting to £2,143,701, to the public, and their assets £2,045,002, being a surplus of about £700,000, or nearly four millions of dollars. The cash capital of the house was £769,770, of which £296,873 had been invested in Liverpool Borough Bank Shares. The assets of the house are as follows:

Produce on hand,	£26,360
Bills receivable on hand,	111,783
Claims in Great Britain,	213,915
Debtors and property in America,	1,584,215

LAMAR FOR OUR FARMERS.—Among the arrivals at New York on Tuesday was the Panama Rail Road Company's brig R. Drummond, from Aspinwall. She has on board, brought on deck, under the care of an intelligent naturalist, Mr. Eggono Rochu, accompanied by two boardsmen, 42 lamas from South America. These animals are in fine condition, and have been imported into this country in the belief that they can be successfully introduced into the wool-growing districts of the Eastern States, and become more valuable than even sheep. They produce the finest kind of a piece wool, and if the breed is found to thrive in the United States, the result must be highly beneficial, the wool being worth 60 cents per pound as an article of export. Their flesh is also greatly esteemed, and is equal to the best venison. They are consigned to Messrs. J. I. Fisher & Sons of Baltimore.

THE MORMON WAR.—The War Department is said to be crowded with applicants from every section of the country for commissions in the army of Utah. A number of young men at Harrisburg, Pa., are endeavoring to raise a company and tender its services to fight "Brigham."

There is a boy story told of a young man who had a light incipient moustache. One day while fingering the few hairs, he said to Harry—Hadn't I better dye this moustache? "Oh, no," replied Harry, "let it alone, and it will die itself."

LOOKING A BEAR OUT OF COUNTENANCE.—A few nights since, one of our citizens was aroused from his slumbers by something pulling the blankets of his bed. As it was near day he concluded it was one of his fun-loving, early-rising chums, playing him a practical joke, so, reaching out his hand he caught the culprit by the hair of the head, as he supposed, while with the other hand he struck a light, at the same time threatening vengeance on the intruder, he so firmly held by the hair. The light blazed up and he leaned over to get a view at the prisoner who had said nary word and seemed to equal to keep out of sight.—Imagine his consternation on finding he had his hand clutched in the hair on the back of a live bear. Here was a fix. His grip relaxed, and dropping the beast retreated to the wall on the further side of the bed. His pistol unfortunately was in his trunk, and not even a shoe knife was in reach. As a last resort he tried to pray, but he could only think of how I lay me down to sleep, which he knew was decidedly out of place on that occasion. He was giving way to despair, when, happy thought struck him, he'd make an ugly face at the bear, so, blank-like, and shivering as he was, he struck an attitude, locking the bear full in the face. Bruin couldn't stand it long, and after one look off wonder he turned tail to and vacated the premises. The victor breathed more freely, secured the door, devoutly thankful for the gift of making faces. The bear belonged to the museum that was exhibited in town, and had accidentally got out of his cage. It was recaptured without difficulty, before it had done any real damage.—*Jackson, Cal. Ledger.*

THE WISCONSIN ELECTION.—The result of the recent State election in Wisconsin is at last determined. The contest county has been heard from, and the footings of majorities are as follows: For Randall (Republican), 9201; for Cross (Democrat), 9100. Randall's majority, 165.

The Northampton Courier says that at a late wedding in an adjoining town, the bride, who had just espoused her third husband, requested the guests to sing the hymn of which her first husband was "so fond" commencing "Hark, from the tombs!"

TO THE DAILY WHIG AND COURIER

CONGRESSIONAL.

WASHINGTON, 22d.

SENATE. Mr Wilson introduced a bill securing to actual settlers the alternate sections by railroad grants; and Mr Johnson a bill for a homestead of 160 acres to each settler who is a citizen of the U. S.

A call was made for proceedings of the Naval Courts of Inquiry.

The Senate resumed the consideration of the Presidents message.

Mr. Fitch said if the election took place in Kansas yesterday, Congressional action on the subject would soon be required, that is, supposing there were no frauds which would vitiate the election. He wished to speak on the subject so as not to be influenced by any possible knowledge here of the character of the proceedings at that election. He should feel bound to comment on some of the views expressed by Mr Douglas. He did not desire to feel him out of the Democratic party, but he would say that a man might by his own voluntary act either by promoting discord in the party or by some other means, place himself beyond the pale of the party organization.—He hardly thought that the old democratic party as such were put to the necessity of reading persons out of their organization.—If however, there were any men in the democratic party who wished to take a position outside of the party, or who attempted to foment discording the party, in return for some fancied grievance in some past, they would remember the fate of every such attempt which had been made from the days of Burr to those of Ved Baroo.

He was in favor of admitting Kansas with whatever constitution she might present. The convention had power to submit the constitution or withhold it, and were responsible only to the people of Kansas.

Mr. Douglas said—According to his own showing Mr. Fitch differed from the President and yet the Senator from Indiana had charged him with faction. If differing from the President was faction, that Senator had double the amount of faction with himself. He had not become the servile tool of any President so as to feel himself bound to take every recommendation without examining to see whether it met his approbation or not. With regard to harmony in the Democratic party, he had only to say that if Democratic Senators and the President would stand by the Cincinnati platform there would be harmony.

Mr. D. said—Call it faction—call it what you please—I intend to stand by the Nebraska Bill, to stand by the Cincinnati platform, to stand by the organization and principles of the Democratic party; and I defy opposition from whatever quarter it may come. He predicted that, before the lapse of 60 days, he would be in harmony with those that were most relied upon now to crush him and the principles of the Nebraska bill, in the admission of the Lecompton Convention. He looked upon that Convention as a trick, and a fraud upon the rights of the people; and, with or, without a very few was opposed to the whole concern. He did not know the object of all these attacks upon him; perhaps his opponents thought they could worry him out, but he would tell them, if he found his strength failing, he would go off and recruit his energies and come back and take a raking fire at the whole of them (laughter).

During a conversational debate between Mr. Douglas and Mr. Fitch, the former, in order to sustain his previous remark, said that he could not place much confidence in the returns from the election which was held yesterday; and said the Convention had declared null and void all the laws passing fraudulent returns, the stated in addition that two officers of the army who were present in Lecompton at the time, informed him that the very man who was known to have perpetrated the Oxford frauds, was elected clerk of the Convention by acclamation, upon the ground that his services in Johnson County entitled him to such consideration.

Mr. Clay thought the remarks of Mr. Douglas calculated to do injustice to the Convention. The 12th section of the Schedule in substance says all officers shall be sworn to a faithful discharge of official duties, and on failure be subject to the same penalties as are provided in like cases under the Territorial laws.

Mr. Stuart remarked that it was true the Constitution makes such a provision; but it was equally true that the Acting Governor has said that there is now no law in Kansas punishing frauds in making returns.

Mr. Clay inquired whether the ipse dixit of the Governor was to prevail over the law?

Mr. Douglas replied—That the clause which the Senator from Alabama had read was in the copy of the Constitution published in the National Intelligencer, but that published in the Union, which, it is said, was furnished by the President, that clause was not to be found.—He (Douglas) would not pretend to account for the variance, unless the Convention adjourned without putting the Constitution into form; and perhaps the Intelligencer was furnished with a revised copy, and the Union printed the document as it was before the Convention. Whether so or not, it does not place the matter under the Territorial laws, where there were penalties for fraudulent returns.

Mr. Clay said that Mr. Douglas was mistaken, for he (Clay) had read from the schedule as published in the Union.

Mr. Douglas proposed to look into the matter, and if he was mistaken he would publicly acknowledge it.

The further consideration of the subject was then postponed. Adjourned.

HOUSE. In committee of the whole on the Treasury Note Bill, Mr Grow opposed sending forth an irredeemable paper currency—there being nothing in the treasury to redeem it with. It would add to present evils. He favored a loan which would bring out twenty millions of coin now in secret recesses, waiting safe investment.

Mr Smith of Va. argued that the notes were not of the nature of bank notes, but in effect a loan. He said that Mr G's position was an illustration of the adage that one upstarted Christian is worse than ten Turks.

Mr Grow. Are not my views on currency good democracy?

Mr Smith. I congratulate the gentleman on that single remnant of his past democratic career.

Mr Grow. You consider me sound, then, on everything but that the Territories should be occupied by white instead of black men.

Mr S. I judge the gentleman's democracy by his associates.

Mr Ritchie (Mr S. having alluded to him) said the President merely spoke of a small loan and of hard money; but the Sec'y of the Treasury asked for $20,000,000 in treasury notes. (Was he justified in saying, the other day, that there were two sons of democracy—one in favor of specie, the other of paper?)

Mr Houston said Mr R was speaking out of order.

Mr R. continued excitedly and amid much confusion.

Mr H. spoke of the gentleman's "repeating a threat."

Mr R. I made none. I only said I occupied the floor by courtesy of the gentleman from Va. and denied the right of the gentleman from Ala to call me to order.

Mr Smith said it was a gentleman from Pa. only made a dig at the democratic party.

Mr Ritchie. Is it my inference a fair one?

Mr S. No. I am surprised that such remarks should come from a statesman of whom we had a right to expect better things. I should like to know what the gentleman from Mass. meant the other day by speaking of the democracy on the north side of the hall?

Mr Banks. The democracy of the Constitution.

Mr Smith. That kind which would let the Union slide, and which seeks the equality of races by absorption? (Laughter on the democratic side.) And did not the gentleman from Ill. say that the constitution was worthless like rotten rags?

Mr Lovejoy. No.

Mr Smith. Nor anything like it?—(laughter, caused by the peculiar manner of the response.) I then acknowledge I have done the gentleman wrong, and am glad he will adhere to the Constitution.

Mr Morris of Pa., regarded the measure as an attempt to return to the policy which the government commenced—to secure a national currency. He was in favor of a national bank with restrictions such as Jackson had might be established, and was therefore glad the new Whig platform had adopted one of the principles of the old Whig platform.

Mr Clanncy Jones having replied to the various objections against the bill, and the necessity of its passage in consequence of commercial revulsions; The model proposed was the least objectionable form of a loan. It was not proposed to issue the notes as currency.

Mr Banks's proposition to raise not exceeding $20,000,000, by issue of stock redeemable in one year, was rejected, 78 to 105.

The Committee then rose. The Senate bills were passed without amendment, 118 to 86.

The House, 97 to 85, then passed the Senate resolution to adjourn to-morrow till the 4th of January. Adj.

From Washington.

WASHINGTON, 22d.

The President has nominated Mr Hall, ex-member of Congress from Iowa, as Chief Justice of Nebraska—together with Messrs Reed, Wright, Murphy, Auge, and others, long ago appointed and heretofore announced for foreign missions.

The Committee on the Judiciary reported back in secret session, but without any recommendation, the President's nomination of Theodore Sedgwick in place of Mr McKeon. This caused a discussion, lively on the merits of the New York magistracy question. The question is not yet decided.

Many members, particularly of the North, are preparing to visit their homes during the holiday recess.

From Kansas.

ST LOUIS, Dec. 22.

A letter in the Democrat, dated 16th inst, says that Gen. Lane was shot at Lecompton on the 15th, by a government officer, but does not give his name. The affair grew out of a political discussion. Much excitement prevailed there.

A despatch received at Brownville this morning, says that Major Russell, Capt. Van Vleit and George N. Sanders, passed down the river last evening, en route for Washington. They left Leavenworth on the 9th.—C. M. Stinson was still the Acting Governor apparently with approbation. Gen. Denver and Gen. Harney had despatched two companies of cavalry, upon Mr. Stanton's requisition to suppress the rebellion at Fort Scott, where several lives had been sacrificed. Gen. Harney had also posted troops at Doniphan, Atchison, Kickapoo, Leavenworth, Lawrence and Lecompton. It is thought that the legitimate vote will be very small, but many Abolitionists are going into the Territory to vote, which fact taken in connection with Secretary Stanton's removal, may cause bloodshed at the polls.

News from the Plains.

ST. LOUIS, Dec. 22.

An arrival from the Plains reports the two companies of the 5th Infantry had met with reverses, and that the Depot at Fort Laramie had been threatened by the Mormons.

Various Items.

WASHINGTON, 22.

Billy Bowlegs has turned up again. The war department has received despatches from Col. Loomis, commanding in Florida, giving details of the army operations in capturing Indians and destroying their depots, supplies etc. The hiding place of Billy Bowlegs has at last been found, and he had received a severe blow by the capture of his women and children. Billy, it is said, has had a council, and at the risk of his life entreated the Indians to come in.

NEW ORLEANS, 21st.

The steamer Cawnshi, from Havana 16th Dec., reports that the sugar market at Havana was unchanged—stock on hand 95,000 boxes; exchange on London, 113 and 114, do on N. York 3 a 4.

MOBILE, 21

The new steamer Virginia, which made her first trip yesterday with an excursion party, was fired into by the Revenue Cutter, under the impression that she was bound on a filibustering expedition. No damage was done.

CHICAGO, 22.

At a Democratic Legislative Caucus, held in Minnesota on the 14th, Henry M. Rice and Lieut. Shields were unanimously nominated for United States Senators.

A strong feeling in favor of Walker's Nicaragua expedition is beginning to show itself here. A meeting of citizens is called for to-morrow.

NEW YORK, 22.

Bark Alnah, Capt Stephens, cleared at the Custom House yesterday for St. Iago, Cuba. While proceeding down the lower bay this morning, was overhauled by a steam tug having on board U. S. Marshal Rynder, who seized her on suspicion that she was to be engaged in the slave trade. She was towed to Jersey City and anchored under the guns of the revenue cutter.

MORTON AND DOUGLAS.—We copy some additional Read of the debate between Senators Douglas and Bigler on Monday in

Mr. Douglas wanted to know by what authority Mr. Bigler said the Lecompton movement was an administration measure? The message does not say so. Had he any higher authority than that?

Mr. Bigler replied. He had made the deduction from the message and from what he know in addition.

Mr. Douglas repeated—He should like to know what other sources of information Mr. Bigler had, as that Senator had that much advantage of him.

Mr. Bigler was not at liberty to say that he was an administration measure, but would allow Mr. Douglas to define what it was.

Mr. Douglas again wanted to know what these other sources of information were, which authorized Senator Bigler to read him out of the party for not sustaining that measure?

Mr. Bigler denied that he had said one word about reading any man out of the party. Did Mr. Douglas mean to make no issue with the administration? When he makes an issue, cannot he tell what it is?

Mr. Douglas—The Senator did not use the words, but he insinuated strongly to that effect. He seemed to be carrying out the system which has been pursued by every pensioned letter-writer for the last few weeks, intimating that the Douglas had deserted the Democratic party, and gone over to the Republicans.

Mr. Bigler—I deny any such accusation. I said the Senator's position excited momentary gratification on the other side of the chamber, and regret on this.

Mr. Douglas wanted to know whether every man is to be driven out of the party because he does not coincide with the President on the questions of the Pacific Railroad and the Bankrupt law as applied to Banks?

Mr. Bigler responded negatively.

Mr. Douglas resumed—Then, if every one of the gentlemen around him were at liberty thus to dissent from the President on the questions of the bankrupt law, Pacific Railroad, and Tariff, and other measures, was not he (Douglas) to be permitted to judge for himself on the subject of the Lecompton movement?

Mr. Bigler had no desire to lay down a rule by which the Senator should be read out of the party.

Mr. Douglas wished to know if the administration did not regard as wanting in party fealty those who refused to sanction the Lecompton movement?

Mr. Bigler replied, that he could not go any further into the subject.

Mr. Douglas—The report is being circulated every where, that the President is prepared to put the knife to the throat of every man who dares to differ from the Administration, and think for himself on this question. He believed that those who circulated such reports were enemies of the President.

Mr. Bigler—In no shape or form have I been laboring to put the Senator outside the party.

Mr. Douglas—If the President and the Democratic party stick to their platform, we can move along harmoniously; but I shall at all events, maintain my position. I shall take all proper occasions to vindicate the great principle with which my public life is identified.

Wistar's Balsam of Wild Cherry.

(From the editor of the Baltimore Patriot)

BALTIMORE, Dec. 18.

Dr. Seth W. Fowle, Boston, Mass.—Dear Sir—I feel it to be due to you to say that a young lady, a member of my family, had been suffering for several years under a bronchial affection, and the disease had made such progress notwithstanding the best medical aid had been rendered, that great fears were entertained that the disease, with her, as with so many others, might speedily terminate in death. I was induced, through the persuasion of a friend, to try your DR. WISTAR'S BALSAM OF WILD CHERRY, and after she had taken three bottles, she felt entirely relieved of the attack.

Very respectfully yours,

WORLD'S BLESSING!

RHEUMATIC, NEURALGIC, & SPINAL BALM.—*A Miracle of the Nineteenth Century.*—A son of Mr. L. Colbroth has been suffering the last two or three weeks with a severe case of Rheumatism—so much so that he was prostrated, and was unable to move himself in bed, and his friends considered him dangerously sick. Dr. J. B. S. Gehlot of Boston, who has discovered a remedy for rheumatism, Neuralgia, and Spinal Disease, arrived in town on Saturday, and has taken rooms at the Elm House. The Doctor was called on to treat his case, and in one hour from the time he applied his Rheumatic Balm he was able to leave his bed and walk his room, and is now free from rheumatism. This is, indeed, a wonderful discovery. [From the Eastern Argus, Nov. 24'57.

FLOUR,

Wheat Meal & Shorts.

The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities, in unbolted wheat meal, and in shorts. A car load, 100 bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently not injured by packing 100 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure now Wheat, not having been heated in large piles or in vessels, as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms, upon application to the subscriber, Office No 27 West Market Place.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via. Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognised by the Agent at Panama, and tickets thus signed can be obtained of the *only authorised Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,

Portland to Boston.

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the FOREST CITY, Capt. F. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.

Fare in Cabin,	$1,25
Fare on Deck,	1,00
Freight taken as usual.	

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Daniel Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with no much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Hive, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.

THIRD DIVISION.

$310,000 WORTH OF FARMS & Building Lots, in the Gold Region of Culpepper County, Va., to be divided among 10,20 subscribers, on the 7th of December, 1857. Subscriptions only *ten dollars* down, or fifteen dollars, one half down, the rest on the delivery of the deed. Every subscriber will get a building Lot or a Farm, ranging in value from $10 to $21,000. These FARMS and LOTS are sold at cheap to induce settlement, a sufficient number being reserved, the increase in the value of which will compensate for the apparent low price now asked. Upwards of 300 Lots are already sold, and a company of settlers, called *the Rappahannock Pioneer Association*, is now forming, and will soon commence a settlement. Ample security will be given for the faithful performance of contracts and promises.

Nearly 45,000 acres of land, in different parts of Virginia, now at command, and will be sold to settlers at from 1 up to $800 per acre.—*Unquestionable title will in all cases be given.*—WOOD CUTTERS, COOPERS, FARMERS, &c., are wanted; and

500 Agents to obtain subscribers, to whom the most liberal inducements will be given. Some Agents write that they are making $200 per month. For full particulars, subscription agreement, &c., apply to M. BAUGER,

Premium awarded to T. C. BUTLER, Derby Line, Vt., on MILLER'S CONDITION POWDERS, for Horses & Colts, at the Vermont State Fair, held at Bellington, Vt., Sept. 9, 10, 11 and 12, 1856.

MILLER'S CONDITION POWDERS

For Horses & Colts.

PRICE—Twenty-five Cents.

THE changes of weather and season, with the changes of use and feed, have a very great effect upon the blood and sinuous fluids of Horses. At these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Hide bites, Mots, &c., all of which will be prevented by giving one or two of these Powders, Spring or Fall, and will at any time cure where any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, clean the water, and invigorate the whole body, enabling the animal to do more work with the same feed.

The action of these powders is directly upon the secretive glands, and therefore all diseases arising from or producing a bad state of the blood are speedily cured by them. Also Colds and surfeit of any kind are cured by one or two of these powders, if given according to directions.

In cases of Horse Distemper, they should be given at the first symptom to prevent fevers, and in the last stage, to carry off all humors of the blood, and to restore a healthy action to the glands of the throat.

We, the subscribers, hereby certify that we have used *Miller's Condition Powders*, for Horses and Colts, prepared by *T. C. Butler*, Druggist, Derby Line, Vt., and think them the best Powders for Horses and Colts that are out of condition, that we have ever used. We would recommend them to Farmers, Stage Companies, Stable men, and others, dealing in or keeping Horses and Colts.

They will clean the Worms and Bots out of a Horse's stomach, and give him a good appetite for his food, and a good coat.

They are also good for the Heaves, and for a Cough, and they have been highly recommended for the cure of Worms and Bots in Colts.

They clean the water, loosen the skin, and invigorate the whole body, enabling the horse to do more work with the same feed. (signed)

Timothy Flint—Mr. Butler would say that Mr. Winn is the proprietor of the Danida House and Stage office on Stanstead Plain, and was for many years proprietor of the Derby Line House, Derby Line, Vt., where he raised a jet black colt called the Know Nothing, which was sold at $1800 at four years old.

Erastus Lee—Mr. Lee is one of the most extensive farmers in Eastern Canada, and has raised some very valuable horses, which he has sold at high prices. This gentleman raised and sold the bay horse called Charley, which was afterwards sold for $1000 and taken to France. He also raised and sold the horse called Bony, which had been taken to California, and is held at $15,000. Mr. Lee keeps from 40 to 60 horses, and colts, and makes great use of Miller's Condition Powders.

Wm. Bailey—Keeps the Lyndon House and Livery Stable at Lyndon, Vt.

H. Heath—drives from Lyndon to St. Johnsbury.

A. B. Flint—St. Johnsbury, Vt., dealer in horses.

Geo. A. Merrill, St. Johnsbury, Vt., dealer of transportation on railroad.

R. A. Quimby—Merchant, Lyndon Centre, Vt., and keeps the Powders for sale.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE—AND RETAIL IN SMALL PACKAGES

E. E. DYER & CO.,
(Sign of the Chinaman grinding Coffee,)
No. 8 Broad, near State Street,.....Boston.

Supply the best, finest and purest articles, at the *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, All spice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tamarind, Prepared Dandelion Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our sales, we annex the following scale of prices, viz:

5th Oolong Tea,	1,25 lb. Mocha Coffee,	1,10
5th Oolong Tea,	1,00 lb. Java Coffee,	1,00
5th Young Hyson Tea,	1,50 lb. good Coffee,	1,00

The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the *genuine article.* The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medicinal properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our article *called* Taraxacum in the market.

To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object, being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system, and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington under Act of 1837.)

76 State Street, opposite Kilby st.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers, or Drawings for Patents executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal opinions, advice rendered in all matters touching the same.—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has that just reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents. [illegible]

All necessarily on a journey to Washington, to procure a patent, and the valid great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I accepted the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. THRICE-WEEKLY

Kennebec Journal for 1858.

During the approaching session of the Legislature the undersigned will continue the publication of the THRICE WEEKLY JOURNAL, being the XIVth Volume of the same.

As is well known, the chief purpose of this paper is to afford the public of Maine a faithful account of the deliberations and actions of its Legislature. With the reports of the Legislative doings we intend also to publish the proceedings of Congress, as they are given in the best reports from Washington.

We look with confidence to our Republican friends throughout the State to aid us in obtaining subscribers. Especially do we solicit from each Republican member of the Legislature, that *personal effort* in his locality without which a remunerating list cannot be secured.

The Thrice Weekly Journal will be published on *Monday, Wednesday* and *Friday* mornings.—The price will be

Single Copy, One Dollar for the Session.

As usual, payable in advance. Any person forwarding us $5 shall be entitled to the ninth copy extra. For $10 we will send two copies extra; for $20 three copies extra.

It is desirable that the names of subscribers accompanied with the money, may be forwarded at or before the commencement of the session.—*Money remitted by mail at our risk.*

DR. SANFORD'S INVIGORATOR, or Liver Remedy.

THIS IS ONE OF THE GREATEST SCIENTIFIC Medicinal discoveries ever made. It is truly wonderful in its effects, and is daily working cures almost too great for belief. It cures all kinds of Fevers, giving benefit, and seldom failing to cure any kind of Fever and Ague, or Dyspepsia, all of which are the result of a diseased Liver.

The Liver is one of the principal regulators of the human body, and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the liver for the proper performance of its functions. When the latter becomes torpid, the whole system suffers in consequence, and health ceases to do its duty. For one of the most obstinate cases of Costiveness, which it invariably cures, in a few days, in most cases it does not require more than two bottles.

To prove that this remedy is unequalled with Liver complaint in any of its forms, has but to try a bottle.

A compound has been lately introduced, that, from its active virtues of the medicinal kind, is and must be, in their place, a healthy stimulant, causing a healthy action of the liver, and consequently a healthy state of the blood, giving a fine and healthy appetite, and in consequence of one bottle, effecting a perfect cure. Green tea is the only remedy wherewith to compare this remedy, which it is found to be.

To those that this remedy has proved
